Dear Senators Inhofe and Lankford,

On behalf of the membership of the Oklahoma Cattlemen's Association, I am pleased to write you in full support of Attorney General Scott Pruitt as President-elect Donald Trump's nomination for Administrator of the Environmental Protection Agency (EPA).

We are in full agreement with your statements of General Pruitt that he is a common-sense, science based public servant. Further, Mr. Pruitt firmly supports the United States Constitution and will respect the role, responsibility and proper authority of the Agency he has been chosen to lead. It is time that the EPA have a leader who understands that agriculture and environment are not opposing terms clashing against each other, but rather America's farmers and ranchers are the original stewards of the precious natural resources our Country so enjoys. Mr. Pruitt is such a leader!

The Oklahoma Cattlemen's Association stands ready to assist you in any way to support General Pruitt through the confirmation process. We so appreciate your individual and collective leadership as fundamental in this process.

Sincerely,

Charlie Swanson
President
